## WORK EXPERIENCE

### JUNIOR FULL STACK DEVELOPER

Junfolio

DECEMBER 2023 - PRESENT

NEXT.JS · REACT.JS · HTML5 · SASS · NODE.JS · MONGO.DB · SOCKET.IO

- Development of a chat-roulette platform complete with registration functionality and microservices architecture. With both back-end and front-end responsibilities, I've completed the project, ensuring seamless communication between users
- Participation in all stages of development - from requirements analysis and design to testing and implementation.

### FRONTEND DEVELOPER (INTERSHIP)

Argo Advisory

DECEMBER 2023 - FEBRUARY 2024

JS · HTML · SASS

- In my role at Argo Advisory, a marketing firm based in Austria and operating remotely, I led the development of the company's comprehensive website while collaborating closely with designers to ensure a cohesive and visually appealing online presence.

### JUNIOR FULL STACK DEVELOPER

Baza Trainee

SEPTEMBER 2023 - DECEMBER 2023

NEXT.JS · REACT.JS · HTML5 · SASS · NODE.JS · MONGO.DB · SOCKET.IO

- Development and maintenance web applications using modern technologies on client-side (frontend).
- Participation in all stages of development - from requirements analysis and design to testing and implementation.
- Optimization of application performance and scalability, ensuring their security and reliability.
- Collaboration with other team members, including designers, testers, and project managers, to achieve common goals and complete tasks within established deadlines.
